SKILLS

Data Analysis & Manipulation   : Python | Excel | SQL
Data Visualization   : Python | Power BI | Excel
Tools   : Github | Orange ML |
Learning   : Machine Learning | SPSS | Artificial Intelligence

PROJECTS

Data Analysis with python projects : Git Repository link

- ➢ Bank Investment Analysis
- ➢ Diwali Data Analysis
- ➢ Super shop Data Analysis
- ➢ Italy Covid Data Analysis

Technology used : Python (Numpy, pandas, Matplotlib , Seaborn)

Data Analysis with Excel projects :

- ➢ IT company Yearly sell analysis
- ➢ Super Shop Data Analysis

Technology used : Excel (Cleaning , transformation, Pivot, Chats)

Education

Education level   : Bachelor
Department   : Software Engineering (SWE)
 Institution Name : Daffodil International University
Current CGPA   : 3.70
Current Year   : 4th (Final year)

Weakness

While I am more comfortable using Python for data analysis, my Excel skills are at an intermediate level rather than advanced. However, I am a quick learner and highly adaptable, and I am confident in my ability to meet company requirements by enhancing my skills as needed.
